

# DIABETES MANAGEMENT

While impacting more than 23 million people in the United States, diabetes can be a serious chronic condition that requires careful monitoring and daily skilled care.

From medical treatment to simple adjustments in daily routines, the professional and caring staff at Senior Care Centers teach each resident how to manage individual symptoms while helping to prevent further complications. We focus on managing the disease so our patients and residents may enjoy full and complete lives. The **Diabetes Management** program at Senior Care Centers reinforces the importance of maintaining a positive lifestyle while fully complying with the recommended individualized treatment plan prescribed by a physician.

- ⌚ Medication management in coordination with licensed nurses and physician support
- ⌚ Trained staff in diabetes management
- ⌚ Personalized nutrition plans that fit the daily needs of patients
- ⌚ 24-hour skilled nursing and medical support services

The heart of  
nursing care is here.
